ABOUT ME

I am a junior forester and a web developer with a passion for personal growth.

My ambition is to create websites and apps that can contribute to the common good and promote innovation, especially in the field of environmental sustainability.

WORKING AND PROFESSIONAL EXPERIENCES

Frontend developer junior

2024-02/2025

Pisapia Group SRLS

Experience in developing modern web interfaces with Next.js, React, Angular, TailwindCSS, and TypeScript, integrating APIs and utilizing the ECL library to ensure compliance with European accessibility and design standards.

Recent projects:

- **Automotive Service Management System** – Developed with **Next.js, React** and **TypeScript**, this system manages the entire lifecycle of automotive services, including quote requests, vehicle rentals, car washes, and other related operations. The modern interface is built with **TailwindCSS** and integrated with backend services.
- **Web Application for Story and Series** Publishing – Built with **React** and **Next.js**, featuring reusable components and real-time content flow management.
- **Highlight Platform for Analysis in the European Community** – Contributed to the development of a platform for visualizing key data and analyses, using **Angular, TypeScript, TailwindCSS**, and the **ECL library**.

Full stack developer

2022-2023

Epicode

During this intensive Full Stack course I have:

- Accumulated more than 950 hours of study
- Realized more than 30 collaborative and individual projects
- Gained experience in creating interactive and adaptive web apps
- Demonstrated solid problem-solving skills and commitment to quality and optimization of developed solutions
- Adopted a result-oriented approach
